

## More Shakti

The Lonavala International Film Festival India will start on September 24 and the organisers have chosen to pay tribute to a man who directed numerous yesteryear classics, Shakti Samanta (in pic). The list of films to be screened includes hits like Aradhana and Kati Patang. "Due to the pandemic, we cannot organise a physical edition this year either, though we have put together an interesting selection that can be enjoyed from home," clarified festival director Madhav Todi. Download the Plexigo app to watch these movies and turn back time.
